

Cindy Grant

BECK & CALL CONCIERGE SERVICES

After first becoming acquainted with Hamlet when her mother was a resident, Cindy Grant now helps Hamlet seniors through her own concierge business — so the community has been part of her life for the past 12 years.

She's continued to be impressed by Hamlet's strong sense of community, which she attributes to the variety of activities offered in both independent living and assisted living as well as Hamlet's connection to the village of Chagrin Falls. "Residents are encouraged to take part in activities going on in the Village with transportation provided to concerts in the park, theater shows and other events."

Cindy often recommends Hamlet not only for senior living, but also for short-term respite stays for those recovering from surgery or a hospital stay to benefit from Hamlet's on-site therapy and transitional care. Above all, she has found that the true dedication of the nursing staff, administration and team members is what makes Hamlet so special. "The staff knows each resident on a personal level and connects with them on a one-on-one basis."
